| SSC | Iqra Mission High School | 2008 | 58% |

CERTIFICATE:

Short term course in Embedded System

Course Certificate in CCNA

Course Certificate in MCSE

ACADEMIC PROJECT:

Mobile Controlled Robot

The project is aimed to control robot motion through mobile phone using DTMF (dual tone multi frequency) technology. In this project we can control robot directions from our mobile without any contact. For this we are using DTMF [Dual Tone Multi Frequency] technique which is as in built feature to few mobiles. This project is designed in such a way that robot is interfaced to the microcontroller [8051] through a driver IC L293D along with one mobile which supports DTMF by using DTMF decoder on the receiver side. A normal mobile phone will be used as a remote control on the transmitter side. Some keys in mobile will be dedicated to control the directions (left, right, and front, back) of the robot.

Competencies:

- ↗ Honest, Sincere and a Hard Worker with a high level of Integrity.
- ↗ Good team player.
- ↗ Organized and well structured at work.
- ↗ Independent and self-motivated.
- ↗ Committed to deadlines and schedules.

Declaration:

I hereby declare that the above particulars are true, correct and complete to the best of my knowledge.

Yours Faithfully

Place: Hyderabad.
